

HEADLIGHT RESTORER WIPES KIT

2 wipes, 10 minutes, headlights like NEW!

EASY TO USE

POWERFUL
CLEANING

QUICK
APPLICATION

PRODUCT DESCRIPTION

Most headlight lenses are made of polycarbonate-based materials which tend to oxidise over time, leading to reduced visibility. Hazy yellow headlights can be a safety risk and potentially lead to MOT failure. Current solutions to headlight cleaning are often complicated and require tools, time and effort. But with Armor All® Headlight Restorer Wipes Kit, all you need is 2 wipes and 10 minutes to help restore your headlights like new.

⚠ ATTENTION

Armor All® Headlight Restorer Wipes kit is only suitable for headlights made of polycarbonate. Avoid contact with painted surfaces. Use painter's tape to protect painted surfaces surrounding headlight. Not for personal cleansing. Dispose of the wipes in bin. Do not flush.

- ✓ No need for any sandpaper or tools
- ✓ One kit cleans two front headlights
- ✓ Only 2 easy steps required
- ✓ Step 1 – Clean Wipe – removes oxidation
- ✓ Step 2 – Protect Wipe – seals the headlight with UV protection coating
