

Green Book

Product Full Name: Turtle Wax Rubbing Compound

Long form Description:

Turtle Wax Red Rubbing Compound is a classic polishing compound which restores badly weathered and oxidized paintwork. It is a heavy duty paste cleaner for dull, badly weathered finishes. Removes moderate scratches, blemishes, paint transfer and surface stubborn stains.

The formulation contains a major concentration of polishing agents of various origins which are blended together with light process oil for optimum performance. This blend of aggressive, non-scratching ingredients provides the abrasive action necessary to remove oxidation, blemishes, paint transfer and stubborn stains to smooth out scratches.

Short Description:

Turtle Wax Red Rubbing Compound is a classic polishing compound which restores badly weathered and oxidized paintwork. It is a heavy duty paste cleaner for dull, badly weathered finishes. Removes moderate scratches, blemishes, paint transfer and surface stubborn stains.
