

## IND SOLV

### Description:

Degreaser and maintainer for grease, wax, resin and ink residues.

Ind Solv is a low-foaming liquid product ideal for removing traces of grease, wax deposits, oil buildup in pipes or on surfaces presenting traces of resin and ink. The highly concentrated water-based, hydrocarbon-free formula makes this product an excellent degreaser for engines, spare parts and heavy-duty vehicles or truck curtains as part of non-routine maintenance.

### Directions For Use:

- Intensive pipe cleaning: use the special pump to introduce the product in the pipes, leave it to work for a few minutes, then vacuum the water and flush out the pipes with a jet of air, similar to the process used in the winter period.
- Intensive cleaning: from pure to 1:10 in water and rinse.
- Routine cleaning: from 1:20 to 1:40 in water and rinse.

### Warnings:

On delicate surfaces, a spot test should always be performed before use. Do not apply on warm or solvent-sensitive surfaces. When handling the product, observe the recommendations in the MSDS and data sheets, the manufacturer's warnings for the devices and materials involved and, if necessary, test tolerability. Keep the container closed and use only caps with a passage for the tubing. The raw materials used may result in variations in colour and turbidity, without compromising the performance and/or quality

### Technical properties:

Appearance and colour: Colourless-liquid

Odour: characteristic

pH: 7,2 ± 0,5

Flash point: >100 °C

Relative density: 0,94 g/cm<sup>3</sup> ± 0,05

Solubility in water: soluble

Solubility in oil: partially soluble

### Storage:

In unopened packaging and stored away from direct sunlight and frost.

### Packaging:
