

# Green Book

**Product Full Name:** Turtle Wax Hybrid Wash & Wax 750ml

**Long form Description:**

Turtle Wax HYBRID Wash & Wax Waterless Cleaning washes and waxes without water. Our 1-Step formula allows you to wash exteriors without a bucket anytime and even in direct sunlight. Hybrid polymer technology encapsulates dirt and grime for a scratch-free clean. The water repellent formula will help water and rain roll off to keep the exterior clean. Fused with proprietary waxes for a shiny, protective finish with no spots or streaking.

**Short Description:**

Turtle Wax HYBRID Wash & Wax Waterless Cleaning washes and waxes without water. Our 1-Step formula allows you to wash exteriors without a bucket anytime and even in direct sunlight. Fused with proprietary waxes for a shiny, protective finish with no spots or streaking.

**5 Bullets:**

- Enriched with proprietary waxes to deliver a shiny high gloss finish that repels water.
- 1-Step formula washes without the need for a bucket or water, wash anytime and anywhere!
- Next generation polymer technology encapsulates dirt, grime and dust for a scratch-free wash.

# Product Usage

## How To Use:

1. If vehicle has caked on mud or soil rinse with a hose first. Product can be used to spot clean and remove stains and stubborn soils with a microfibre cloth.
2. For general wash & Waxing apply 3 sweeping sprays per 3-4 square feet.
3. Remove the product and buff to a high shine with a clean, dry microfibre cloth.
4. Clean one section at a time, starting with the upper exterior surfaces and exterior glass first.
5. Repeat process for entire vehicle making sure to cover all paint, wheels and trim.

## Turtle Tips:

The perfect solution for cleaning on-the-go or in urban environments. Take with you for those quick go-moment touch ups to keep your vehicles looking at their best. Can be applied to all exterior surfaces including glass, trim and rubber. Can also be applied to hot or cool surfaces.
