Product Full Name : Turtle Wax Carnauba Shampoo

Long form Description:

Turtle Wax Carnauba Shampoo consists of an innovative blend of surfactants, lubricants, and carnauba wax for the ultimate in car care performance. Made with the finest ingredients that are safe and gentle to even the most sensitive automotive finishes. Every time you use Carnauba Shampoo a protective layer of wax is deposited on the exterior finish to provide additional shine and protection. The formula is pH balanced and produces rich, lubricious foam which encapsulates and loosens abrasive soils. Encapsulation technology helps prevent soils from re-depositing on the paint finish to reduce the formation of swirl marks and minor surface scratches. Regular use of Carnauba Car Wash and Wax will leave your automobile finish sparkling clean without stripping previously applied wax.

Short Description:

Turtle Wax Carnauba Car Wash and Wax consists of an innovative blend of surfactants, lubricants, and carnauba wax for the ultimate in car care performance. The formula is pH balanced and produces rich, lubricious foam which encapsulates and loosens abrasive soils. Regular use of Carnauba Car Wash and Wax will leave your automobile finish sparkling clean without stripping previously applied wax.

5 Bullets:

- Formulated with Premium Carnauba for Depth & Shine
- Added cationic rinse aid to actively repel water and speed up drying time
- Self rinsing properties ensure no residual detergents are left on paint surface to cause streaks
- Active detergents remove dirt, grime and traffic film to leave a glossy finish
- Tropical Scent to even better consumer experience
- Self rinsing ensures quick dry time in cold weather conditions

Product Usage

How To Use:

1. Add 25ml Carnauba Shampoo for every 5L of water in your bucket
2. Activate foam with hand agitation or with a burst of water from a garden hose/pressure washer
3. Rinse car thoroughly, removing all loose soil
4. Ideally apply with a car wash mitt starting at the top of the vehicle and work downwards
5. When all sections are completed, rinse the entire car with clean, cool water
6. Use a Microfibre Towel to thoroughly dry
