

Armor All Podium Series™ Hybrid Ceramic Wash & Shine Developed With Oracle Red Bull Racing, 500 mL

AA PS Hy Crmc Wsh & Shn BTL 6/500mL EU4

Developed in collaboration with Oracle Red Bull Racing, the Armor All Podium Series™ Hybrid Ceramic Wash & Shine combines an SiO₂-based protective barrier with synthetic wax to provide exceptional water beading and intense shine. This unique hybrid ceramic car wash delivers long-lasting protection to repel debris that could otherwise damage vehicle surfaces. The super-concentrated, pH-neutral car wash and wax formula cleans and protects with just 3 oz of car soap, safely lifting dirt and road grime from exterior auto surfaces without stripping waxes or sealants.

Features & Benefits

- One 500 mL bottle of Armor All Podium Series™ Hybrid Ceramic Wash & Shine developed in collaboration with the Oracle Red Bull Racing team
- Car wash and wax that combines an SiO₂-based protective barrier with synthetic wax to provide exceptional water beading and intense shine
- Unique approach of the hybrid ceramic car wash leaves long-lasting protection, repelling debris that could otherwise damage vehicle surfaces
- Super-concentrated, pH-neutral car wash and wax formula cleans and protects with just 3 oz of car foam soap, safely lifting dirt from exterior surfaces without stripping waxes or sealants
- High foaming car wash soap with flash foaming agents to resist ceramic defoaming and produce thick suds that help remove contamination
- Slick formula and suds lubricate vehicle surfaces for smooth gliding of wash mitts and sponges across paintwork to reduce the chances of scratches and swirl marks
- Enhances your car wash experience with a refreshing tropical scent

Armor All Podium Series™ Hybrid Ceramic Medium Shine Protectant Spray Developed With Oracle Red Bull Racing, 500 mL

AA PS Hy Crmc Prot TRG 6/500mL EU4

Developed in collaboration with Oracle Red Bull Racing, the Armor All Podium Series™ Hybrid Ceramic Medium Shine Protectant Spray combines an SiO2-based protective barrier with synthetic elements that optimise cleaning performance and deliver long-lasting surface protection. The hybrid ceramic approach to this interior car protectant spray helps repel future stains and dust buildup as it cleans and nourishes, improving colour depth with a medium-shine finish. With 20% more UV blockers, this protectant prevents damage from UV rays to VRP (vinyl, rubber, and plastic) surfaces, providing remarkable protection and keeping your vehicle looking like new.*

Features & Benefits

- One 500 ml bottle of Armor All Podium Series™ Hybrid Ceramic Medium Shine Protectant Spray developed in collaboration with Oracle Red Bull Racing
- Combines SiO2-based protective ceramic barrier with synthetic elements to optimise cleaning and UV protection
- Hybrid ceramic car protectant spray leaves behind a long-lasting ceramic barrier to help repel future stains and dust buildup as it cleans
- Nourishes vinyl, rubber, and plastic while improving colour depth
- With 20% more UV blockers* this car interior protectant protects vinyl, rubber and plastic surfaces from UV damage
- Optimised trigger on the UV protection spray allows for a controlled, fine-mist application directly onto the surface or onto a microfibre towel
- This car interior cleaner and protectant leaves a streak-free, medium shine finish and a calm and warm, woody scent

Armor All Podium Series™ Hybrid Ceramic High Gloss Tyre Shine Spray Developed With Oracle Red Bull Racing, 500 mL

AA PS Hy Crmc Tr Shn TRG 6/500mL EU4

Developed in collaboration with Oracle Red Bull Racing, the Armor All Podium Series™ Hybrid Ceramic High Gloss Tyre Shine Spray combines an SiO2-based protective barrier with synthetic polymers that transform tyres with an intense and durable high gloss shine. This hybrid ceramic tyre shine formula clings to tyres without dripping and self-levels to a smooth, even finish. The high gloss tyre shine is durable enough to last up to 4 weeks and can withstand several car washes and rain exposure. The precision spray trigger delivers optimised application, ensuring the tyre shine is evenly applied and dries to a high-shine finish that lasts.*

Features & Benefits

- One 500 mL bottle of Armor All Podium Series™ Hybrid Ceramic High Gloss Tyre Shine Spray developed in collaboration with Oracle Red Bull Racing
- SiO2-based ceramic technology leaves a long-lasting protective barrier
- Synthetic polymers in this tyre and wheel protectant spray transform tyres with an intense and durable high gloss shine
- Hybrid ceramic tyre shine and conditioner spray that clings to tyres without dripping and self-levels to a smooth, even finish
- High gloss car tyre shine is durable enough to last up to 4 weeks* and can withstand several car washes and rain exposure
- Precision spray trigger delivers optimised application, ensuring the tyre shine is evenly applied and dries to a high-shine finish that lasts
- The perfect last step in your wheel and tyre regimen, this high gloss tyre spray leaves tyres protected and shining, with a warm, bold, and invigorating woody scent
