# Product Sell

## **Product Full Name : TURTLE WAX HYBRID SOLUTIONS CERAMIC WET WAX**

### **Long form Description**

Introducing Turtle Wax Hybrid Solutions Ceramic Wet Wax for terrific 1-step shine & protection. Use this product regularly by itself, or in conjunction with other Hybrid Solutions products, to quickly shine & protect while also delivering ceramic protection and super-hydrophobic polymers to your vehicles surface. This product will keep your car's exterior looking new and helps your car stay protected from environmental assaults without the laborious detailing process required of traditional products, simply wash your vehicle, spray on and dry off. The product will even accelerate the drying process & prevent water spots during use! With Turtle Wax Hybrid Solutions Ceramic Wet Wax, car care has never been easier.

### **Short Description:**

Introducing Turtle Wax Hybrid Solutions Ceramic Wet Wax for terrific 1-step shine & protection. Use this product regularly by itself, or in conjunction with other Hybrid Solutions products, to quickly shine & protect while also delivering ceramic protection and super-hydrophobic polymers to your vehicles surface.

### **5 Bullets:**

- Wet wax contains SiO<sub>2</sub> ceramic technology that enhances the gloss and protection of your vehicle's paint
- Super hydrophobic and SiO<sub>2</sub> polymers deliver instant water repelling and chemical resistant protection
- The ceramic technology provides long-lasting protection against environmental contaminants and UV rays, helping to maintain the shine and appearance of your vehicle's paint
- Safe for use on all vehicle surfaces, including paint, plastic, and glass, and won't leave white residue on plastic trim
- Brings out the full depth and richness of your vehicle's color, making it look like new

# Product Sell

Turtle Wax Hybrid Solutions Ceramic Wet Wax is a high-quality car detailing product that is designed to protect and enhance the shine of your vehicle's paint. This product features advanced ceramic technology that creates a durable, water-repellent barrier on the surface of your car that helps to protect against UV rays, environmental contaminants, and other common sources of damage. This wax is easy to apply and can be used on all exterior surfaces of your vehicle, including painted surfaces, glass, and chrome. Additionally, the wet wax formula creates a deep, glossy shine that will make your car stand out on the road.

# Product Usage

## How To Use:

1. Wash your vehicle thoroughly using a car wash shampoo and rinse it off with water. Make sure the surface is clean and free of any dirt or debris
2. Skip drying and leave the car wet following a thorough rinsing
3. Shake the bottle well before use
4. Apply 2 sprays per panel
5. Dry with a microfiber drying towel

## Accessories:

- Microfiber Drying Towel
- Microfiber Towels

## Partner Products:

- Hybrid Solutions Ceramic Wash & Wax
- Hybrid Solutions 3 in 1 Detailer

# Technical Fact Sheet

Product Name: TURTLE WAX HYBRID SOLUTIONS CERAMIC WET WAX 53410
