### Product description

High quality effective spray to refresh and clean the air conditioning and air circulation system in vehicles.

### Product characteristics

Very easy to apply

Very effective

Subtle scent

### Physical and Chemical Characteristics

Contents : 150 ml

VOC-content : Approximately 90% w/w

### Usage

**Before use, carefully read the directions on the packaging and act accordingly.**

The aerosol should have room temperature. Best processing temperature 5 to 30°C. Before use, shake the aerosol

Start the engine and let the engine idle. Put both chair and the back of the chairs in front position. Put the air circulation system on full power in the recirculation position. Place the Airco Refresher behind the chairs, activate the aerosol by pressing the nozzle once and close the door. After full evaporation of the Airco Refresher, the engine should idle for some minutes.

Switch of the engine and ventilate the vehicle for approximately 10 minutes.
