Product Full Name: Turtle Wax Luxe Leather Cleaner & Conditioner

Long form Description:

Turtle Wax Luxe Leather Cleaner and Conditioner is a 1-step product which cleans, conditions and protects Leather, Vinyl, Rubber and more! The quick penetrating formula spreads evenly; its emollient enriched ingredients restore a soft, smooth feel to sun dried leather. Porous, damaged leather surfaces easily absorb the non-greasy, non-oily conditioners and sunscreen ingredients. It contains a scientifically balanced blend of cocoa butter, Vitamin E, and Aloe Vera to nourish the leather. It gently softens and helps prevent leather surfaces from cracking caused by the rages of time, wear and over-exposure to the sun's damaging rays. The formula is pH balanced to be gentle, allow for regular use, and preserve a "natural leather look". The easy-to-use formula leaves a smooth, silky, natural feel unlike many interior protectants that can leave a tacky, sticky residue

Short Description:

Turtle Wax Luxe Leather Cleaner and Conditioner is a 1-step product which cleans, conditions and protects Leather, Vinyl, Rubber and more! The quick penetrating formula spreads evenly; its emollient enriched ingredients restore a soft, smooth feel to sun dried leather.

5 Bullets:

- Rich non drip cream removes ingrained dirt and restores the surfaces natural suppleness
- The non-greasy formula is a pH balanced blend of cocoa butter, vitamin E and aloe vera which combine to restore lustre and softness to all leather upholstery
- Added UV protectors block harmful sun's rays to prevent colour fading, drying and cracking of leather
- Conditioning oils restore suppleness and protects the leather's finish

Product Usage

How To Use:

1. Shake bottle well.
2. Some surfaces may not be colour fast. Always test on an inconspicuous area first. If adversely affected, do not use.
3. Pour onto a clean, soft, non-dyed cloth and apply using a firm, circular, over-lapping motion and leave for 1-2 minutes.
4. Buff lightly using a clean, soft cloth.

Turtle Tips:

For treated leather surfaces only. Not recommended for use on leather clothing or footwear. DO NOT use on suede, nubuck or alcantara. On heavily soiled surfaces, wipe using a damp cloth prior to application. A repeat application may be necessary.

Accessories:

Microfibre Cloth
