

## Armor All Shield + Ceramic Car Wash, 520ml

Whether you prefer car cleaning by hand, or the power of using a pressure washer and foam cannon, achieve thick, long-lasting foam with Armor All Shield + Ceramic Car Wash. The car wash cleaner's dirt-repelling formula creates a slick, durable SiO<sub>2</sub>-based technology barrier that helps keep your car cleaner for longer between washes. The invisible barrier also enhances water beading, and ceramic + shine technology dials up your car's sheen. For best results, use on a cool car, preferably in the shade. First, rinse your car to remove loose dirt. Shake Armor All Shield + Ceramic Car Wash well, then pour 60ml of the wash shampoo into a bucket and mix with water.
