

## DUPLI-COLOR METAL SILVER/GOLD/ COPPER/ANTIQUE

## Technical Information

Decorative bronze gloss in different shades like silver, gold, copper, bronze. For handicraft works on wood, metal, glass, cardboard etc.

Quick-drying synthetic lacquer. Especially productive due to high share of bronze substance.

**Ord.-no:** 467356, 467400, 467394, 467370

### Quality & properties

- High-grade synthetic quality
- Long-term high coverage and filling power
- Excellent adhesion
- Good flow, smooth surface
- Quick-drying
- Suitable for use on indoor objects
- Resistant to water and common household cleansers
- Effect of gloss can change by intense rubbing or wiping.

### Physical & chemical data

- Base: Alkyd resin
- Colourname:
  - silver
  - gold
  - copper
- Smell: Characteristic
- Degree of gloss: semi gloss, 45 ±5
- Efficiency: 400 ML – 1.2 m<sup>2</sup>
- Dust dry: 10 min
- Dry to touch: 60 min
- Completely dry: 24 h
- Overcoatable: 24 min
- Surfaces: wood, metal, glass, cardboard, plants etc.
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Flash point: n.a.
- Storage stability: 10 years
- Content: 400 ML

---

**How to use**

The ground has to be clean, dry and free of fat.  
Absorbant surfaces should be primed with DUPLI-COLOR Universal Primer.  
Mask off areas not to be painted.  
Shake the can vigorously for approx. 3 minutes.  
Test spray at an invisible spot to check colour and compatibility.  
Spray several thin coats from a distance of approx. 25 cm.  
Due to technical reasons it is not possible to conserve the excellent high gloss. A coat of clear lacquer would dissolve the effect lacquer. Just renew the gloss by applying a new coat of bronze spray.

**Environmentally sound**

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

**Disposal**

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

**Marking/Labelling**

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

**As of August 4, 2025** – This release replaces all eventually earlier issued versions.
