

Armor All Podium Series™ Hybrid Ceramic High Gloss Tyre Shine Spray Developed With Oracle Red Bull Racing, 500 mL

AA PS Hy Crmc Tr Shn TRG 6/500mL EU4

Developed in collaboration with Oracle Red Bull Racing, the Armor All Podium Series™ Hybrid Ceramic High Gloss Tyre Shine Spray combines an SiO₂-based protective barrier with synthetic polymers that transform tyres with an intense and durable high gloss shine. This hybrid ceramic tyre shine formula clings to tyres without dripping and self-levels to a smooth, even finish. The high gloss tyre shine is durable enough to last up to 4 weeks and can withstand several car washes and rain exposure. The precision spray trigger delivers optimised application, ensuring the tyre shine is evenly applied and dries to a high-shine finish that lasts.*

Features & Benefits

- One 500 mL bottle of Armor All Podium Series™ Hybrid Ceramic High Gloss Tyre Shine Spray developed in collaboration with Oracle Red Bull Racing
- SiO₂-based ceramic technology leaves a long-lasting protective barrier
- Synthetic polymers in this tyre and wheel protectant spray transform tyres with an intense and durable high gloss shine
- Hybrid ceramic tyre shine and conditioner spray that clings to tyres without dripping and self-levels to a smooth, even finish
- High gloss car tyre shine is durable enough to last up to 4 weeks* and can withstand several car washes and rain exposure
- Precision spray trigger delivers optimised application, ensuring the tyre shine is evenly applied and dries to a high-shine finish that lasts
- The perfect last step in your wheel and tyre regimen, this high gloss tyre spray leaves tyres protected and shining, with a warm, bold, and invigorating woody scent
