### Product description

High quality lacquer to treat surfaces, treated and untreated, of wood, metal, aluminium, glass, stone and various types of plastic.

### Product characteristics

Excellent coverage  
Not rub resistant  
Not resistant to weather influences  
Excellent adhesion

### Physical and Chemical Characteristics

Contents	:	400 ml	150 ml
Base	:	Acrylic resin	
VOC-content	:	Approximately 93% w/w	
Solid content	:	Approximately 7% w/w	
Gloss	:	Matt	
Coverage	:	1,25 to 1,75 m <sup>2</sup>	Approximately 0,5 m <sup>2</sup>
Dust dry	:	After 5 to 10 minutes	
Tack free	:	After 10 to 20 minutes	
Hardened/re-sprayable	:	After 24 hours	
Heat resistant	:	To 110°C	

### Usage

**Before use, carefully read the directions on the packaging and act accordingly.**

#### Pre Treatment

The surface should be clean, dry and free of grease. Remove loose old lacquer and rust and sand the surface. Apply a layer of MoTip Deco Effect primer suitable for the surface. After drying, sand the base layer (grain 600).

#### Treatment

The surface should be clean, dry and free of grease. The aerosol should have room temperature. Best processing temperature 15 to 25°C. Before use, shake the aerosol for 2 minutes and spray a sample. Distance to the surface to be treated approximately 25 to 30 centimetre.

Apply the lacquer in several thin layers. Before applying the next layer, again shake the aerosol.

**Not re-sprayable with clear varnish.**

After use, clean the valve (turn aerosol upside down and press the nozzle for approximately 5 seconds).

**The drying time depends on the ambient temperature, the humidity of the air and the thickness of the lacquer applied.**
