Product description

High quality rubber based spray to execute emergency repairs on tyres of bicycles and motorbikes.

Product characteristics

Easy to use
Rubber based
Can be used without removing the tyre

Physical and Chemical Characteristics

Contents : 75 ml
VOC-content : Approximately 50% w/w

Usage

Before use, carefully read the directions on the packaging and act accordingly.

The aerosol should have room temperature.
Best processing temperature 15 to 25°C.
Before use, shake the aerosol.

Search the cause of the leakage and remove this. Completely let the tyre down. Screw the adaptor on the valve. Hold the can upside down and empty completely.

In order to enable the product to equally spread in the tyre, directly drive about ten minutes. Then remove the propellant from the tyre and again bring the tyre on pressure.

When repairing the tyre, please indicate the tyre was temporarily repaired with Tyre Repair.

Suitable to repair small leakages in the tyre.
